

Since 1933 ITW Mark-Text has been a world leader in heavy duty industrial markers. In fact, ITW Mark-Text is the number one manufacturer of markers for the textile and laundry industries.

Our specialty markers are bright, sharp and quick drying. Durable, permanent or temporary inks are available for fabric marking needs. ITW Mark-Text marking pens are also acclaimed for their ease of use, exceptional quality and long life. When you need a superior textile or laundry marker, choose the world leader; ITW Mark-Text.

DALO® TEXTILE MARKERS

Available Tips/Colors/Product #'s
SS=Stainless Steel Pstc=Plastic

Medium-Pstc Tip

23016	23066
23036	23086
23016	23106
23046	

Medium-SS Tip

23013	23063
23033	23083
23013	23103
23043	

Broad-SS Tip

23014	23064
23024	23084
23014	23104
23044	

Advantageous for its ultra-high capacity, the Daloo® "T" Stock Textile Marker provides a bright, sharp, rapid-drying permanent mark on synthetic and synthetic/cotton blended fabrics.

- Large, heavy duty aluminum body
- Precision rolling ball tip
- Available in medium or broad tips (plastic tips are color coded)
- Rubber bulb flow control
- Ergonomically correct marker allows you to mark at all angles, even upside down

TEXPEN® TEXTILE MARKERS

Available Tips/Colors/Product #'s

13044	

The Texpen® "T" Stock Textile Marker, like the Textile Daloo®, provides a bright, sharp, rapid-drying permanent mark on synthetic and synthetic/cotton blended fabrics.

- Heavy duty aluminum body
- Precision rolling ball tip
- Choice of fine, medium and broad tips (plastic tips are color coded)
- Rubber bulb flow control
- Perfect for use in textile labs for marking test swatches
- Ergonomically correct marker allows you to mark at all angles, even upside down

TEXTILE SCOUR OUT® MARKERS

Available Colors/Product #

55209	55983
55982	55311
55265	55052
55312	

WARNING: This ink may not be fugitive on certain fabrics and yarns. Please test suitability before use.

The Scour Out® Marker makes a sharp, clear, bright, fugitive mark directly on fabrics and yarns. This mark will disappear without a trace during scouring or boiling-off.

- Large, heavy duty plastic body
- Long-lasting ink supply
- Valve action mechanism won't allow ink to dry out
- Replaceable fiber nib
- Screw on and off cap with pocket clip
- Won't brush off or "set" like chalk and can't get lost like clipped-on tags
- Perfect to identify fiber content, lot or style number, and defective areas on fabric

DALO® FABRIC MARKERS

The Dalo "S" Stock Fabric Marker is specially designed to withstand dyeing, washing, finishing, bleaching, scouring, boiling-off and fulling of cotton, wool and silk fabrics. It is ideal for marking garments to be dyed, dry cleaned or laundered.

- Large, heavy duty aluminum body
- Precision rolling ball tip
- Available in medium or broad tips (plastic tips are color coded)
- Rubber bulb flow control
- Ergonomically correct marker allows you to mark at all angles, even upside down

Available Tips/Colors/Product #

Medium-Plstc Tip

22016	22066
22026	22086
22036	22106
22046	

Medium-SS Tip

22017	22067
22027	22087
22037	22107
22047	

Broad-SS Tip

22014	22064
22024	22084
22034	22104
22044	

TEXPEN® FABRIC MARKERS

The long-lasting Texpen® Fabric Marking Pen provides a bright, sharp, rapid-drying mark on all fabrics. The pen's "S" stock ink withstands high caustic and high temperature wash formulas and lasts after repeated laundering and dry cleaning. Contains no phenol or aniline oil (non-toxic).

- Heavy duty aluminum body
- Precision rolling ball tip
- Available in fine, medium and broad tips (plastic tips are color coded)
- Rubber bulb flow control
- Ergonomically correct pen allows you to mark at all angles, even upside down

Available Tips/Colors/Product #

12044	

LAUNDRY AND DRY CLEANING PEN

The Laundry & Dry Cleaning Pen withstands repeated caustic high temperature washing, dry cleaning and laundering. The fine point fiber nib allows for precise marking on fabric.

- Fine, bright, sharp, rapid-drying marks
- Filled with more ink than competitors of comparable size
- Valve action mechanism won't allow ink to dry out
- Replaceable fiber nib
- Contains extra nib in end of barrel
- Snapping cap with pocket clip

Available Colors/Product #

33801	33806
33802	33808
33803	33810
33804	33807

LAUNDRY/TEXTILE INKS

Laundry Bulk Inks ("S" Stock formulation) are designed for permanent marking which will resist today's modern laundering and dry cleaning processes. Like the Laundry Fabric Marking Pen and the Fabric Marker, these bulk-packed inks are specially designed for cotton, wool and silk fabrics.

Laundry Inks

Pints	Gallons
85842	87842
85215	87215
85309	87309

Textile Bulk Inks ("T" Stock) are the same formulation as the ink contained in the Texpen® and the Dalo® Textile Markers. These inks will produce bright, sharp, rapid-drying results on synthetic and synthetic/cotton blended fabrics.

Textile Inks

Pints	Gallons
85295	87295
85303	87303
85307	87307

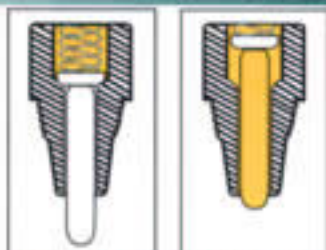

All Inks

- Available in pints, gallons, or five gallon containers
- Available in other colors by special order (stamp inks also available)

Removes ink stains										X	

MARKER TIP TECHNOLOGY

THE VALVE ACTION MECHANISM

The valve action, ink-fed mechanism supplies only as much ink as needed to complete the marking job. A synthetic nib, made from a variety of different materials, is secured tightly in the tip of the marker body. Resting on a firm, stainless steel spring, the nib draws ink when pressure is applied. The nibs are easily replaceable and interchangeable. A new valve action tipped marker is primed by depressing the nib several times against a solid object. To re-ink, press nib down once.

STAINLESS STEEL-BALL MECHANISM

The durable, stainless steel-ball mechanism is designed for the most rigorous environments. Resting on a firm, stainless steel spring, our steel-ball is permanently secured at the end of the marker tip. The ball releases ink when the tip is pressed against fabric. When the marker is raised, the ball provides an air tight seal so the ink will not dry out during periods of non-use. A new stainless steel-ball marker is primed by pumping the rubber flow bulb.

AVAILABLE TIP SIZES

Valve Action Mechanism		
Scour Out® Color Marker		5.8 mm
Laundry & Dry Cleaning Pen		2 mm

REMOVAL PRODUCTS

SPOT-IT INK-OFF may well be the most powerful ink stain remover ever made for the professional dry cleaning industry.

- Comes in a handy squeeze container
- Can be applied directly to the stain without messy applicators or concern about dangerous spills
- Safe for all natural and synthetic fabrics except acetate
- Must be used on spotting board

CAUTION: Always test fabrics before use.

Product # 93262

Powerful, yet safe, citrus-based formula works together with an absorbent, non-scratching, abrasive hand cleaner towel.

- SCRUBS® do not re-transfer soils onto the skin
- Works fast to loosen, dissolve and absorb dirt, ink, dye, and paint
- Each bucket contains 72 perforated cleaning towels made of a unique abrasive propylene material

CONTAINER SIZE

72 Towels/Bucket

Product # 42272
