

SHIELD® Felts for Heat Transfer (Sublimation) Printing

UNITED STATES SUPPLY has been intricately involved in the supply of these felts for over twenty years. We have developed and incorporated many improvements during this time to insure that our Transfer Printing Felts are the finest in the world.

Our Research and Development staff constantly evaluates new fibers, chemical treatments, and manufacturing processes to provide the highest quality and most economical felt available today.

Construction

- **Endless** - No seams or splices to mark-off or pull apart.
- **Exceptionally Smooth Print Surface; engineered to provide the sharpest print definition and longest life.**
- **Superior Strength and Durability** as the felt is woven endless.
- **Heat-Set** for excellent dimensional stability, which insures ease of tracking.
- **Batt-on-Base construction** - Encompasses a woven endless scrim (base) with a needled surface (batt).

Style

- **SUBLIME 7000â** - Density of 2,200 g/m² with a standard thickness of 7 mm.
- **SUBLIME 7002â** - Density of 2,500 g/m² with a standard thickness of 8 mm. For special applications where added thickness may be a benefit.

Special Features

- Chemical treatment and manufacturing process retards absorption of inks and chemicals.
- Heat-set to speed tracking set up during installation.

Standard Sizes and Ordering Information

- **LENGTH** - 2 to 25 Meters (6.56 - 82')
- **WIDTH** - 50 mm to 3810 mm (2 - 150")
- **THICKNESS** - 3 - 25 mm (0.12 - 1")
